Preface

1. This review 2018-19 has been conducted to fulfill the legacy of Founding Chairman Imran Khan of converting Pakistan Tehreek Insaf into a democratic institution to build a Modern Islamic State. Essential elements of an institution are the rule of law, non-personal objective decision making, transparency and accountability.
 2. In the absence of the established democratic traditions in the party, detailed account of organisational structures, powers and functions is required and the same has been provided even at the cost of repetition and procedural details.
 3. The language has been made as simple as possible to make it easy for the understanding of party members.
 4. In structuring this document following principles have been followed,
 - 4.1. Transparency and effective communication for informed opinion/decision making.
 - 4.2. Inclusivity and collective decision making, the soul and spirit of democracy, have been ingrained at every level.
 - 4.3. Devolution of power and robust objective accountability have been weaved in to instill the basic democratic values.
 - 4.4. A great importance has been attached to the continuing education and training of the members and leaders, alike. This department has been elevated to a new level.
 - 4.5. To achieve the very best of the practices and performance, evaluation procedures for all (members, leaders, parliamentary selection boards and all contained organisations) have been carefully laid down and a new organ (party management cell) has been created for the purpose.
 5. To help improve governance, think tanks are provided for policy research and development at the top while action committees for monitoring and feedback at the lower tiers.
 6. A new cadre of non-constituency leaders is being developed through incentives to function as the spine of the party.
 7. Merit based procedures for the award of tickets have been institutionalised to bring up the best available candidates and improve the capacity with each recurring cycle through post election audit and review.
 8. Members of the elected public bodies (Local Government, Provincial Assemblies and the Parliament) are not only integrated within the collective decision making bodies at corresponding levels but also made accountable.

Preamble¹

Whereas;

1. The creation of Pakistan was a result of the relentless struggle of Muslims in India under the inspiring leadership of Quaid-e-Azam Mohammad Ali Jinnah, to establish a homeland where people of all religious persuasions could freely practice their beliefs and ideals and where the rights of minorities were expressly guaranteed and determined;
2. Pakistan was envisaged as a country and society wherein people shall live in harmony and peace - free from discrimination, exploitation, corruption and prejudices of any kind - under a democratic system ensuring justice, equality and prosperity for all citizens;
3. The concentration of power at the centre and frequent and long military takeovers have negated the spirit of federalism, causing a sense of deprivation among the federating units, which resulted in narrow parochialism, ethnicity and division among the people that tragically led to the separation of East Pakistan and continues to threaten the integrity and solidarity of Pakistan;
4. Pakistan fell into the hands of a ruling elite consisting of inept, corrupt and selfish politicians, feudal, civil and military bureaucrats, and a host of vested interests that have plundered Pakistan and have brought it to the brink of disaster;
5. A colonial system of government and the feudal stranglehold on society has afflicted a dependency syndrome, which has created a chronic debt-dependent economy that thwarts initiative and self-reliance;
6. Justice and the rule of law have disappeared from all walks of life, due to which, the state institutions have lost credibility;
7. The common citizen is deprived of access to basic necessities of life such as food, education, employment, health care, clothing, housing and transportation and has been made a victim of violence in society, breakdown of law and order, institutionalised corruption, tyranny of police and other government department;
8. The liberation of Jammu and Kashmir remains an unrealised goal of the Pakistan Movement and;
9. Pakistan stands at the threshold of an economic disaster, breakdown of institutions, collapse of governance, social disorder, desperation and disillusionment.

Therefore:

We have established a political party to mobilise people to lift Pakistan from its present state of despair, and to set it on the path of unity, solidarity, social justice and prosperity.

¹ Preamble kept in original text (2012-2014, Hamid Khan et.al) for historical reasons
